To Veenstra and Kimm and the City of David City,

BRB Contractors was asked to run an additional 18" sewer line from the AGP manhole to the existing pump station. The proposed work is as follows:

- Core a new hole in the existing AGP manhole as shown.
- Run a temporary 18" line as shown. PVC proposed due to availability of materials.
- Connect the line to the existing manhole as shown.
- Cover/backfill the open excavation. Once completed with the bypass, plug and abandon the line.

The cost of this proposed work would be \$105,656.02 and take an additional eight days. A breakdown of costs is provided below. If you have any further questions, please feel free to reach out.

Thank You,

Josh Klug
